

# **VOL CSC Task Force**

## Meeting Minutes

Thursday, 04/18/2024 (via Zoom)

Attendees: Ronny Hardaway, Drew Riedl, Lynn Leopold, Jerry Sheng

Meeting was called to order at 5:02 PM.

## **FATHOM SUMMARY**

---

### **VOL CSC/CEC Task Force Meeting - April 18**

#### **[VIEW RECORDING - 26 mins \(No highlights\)](#)**

#### **[Introduction @ 0:00](#)**

Ronny introduced the meeting attendees and agenda, noting Chris Skawski's absence due to a conflicting meeting.

#### **[Earth Day event details @ 4:50](#)**

Jerry detailed the upcoming Earth Day event hosted by himself and Chris, inviting others to share village materials to distribute.

#### **[Joint safety action plan bicycle and pedestrian infrastructure @ 6:13](#)**

Ronny reported providing the county a prioritized list of roads and intersections for pedestrian safety improvements, positioning the village well for future grant opportunities to fund such projects.

#### **[Heat emergency plan and cooling centers research @ 9:09](#)**

Ronny and Lynn discussed efforts to obtain the county's heat emergency plan and designated cooling centers, frustrated by lack of accessible information online; Jerry offered to share draft cooling center policies.

#### **[Natural areas conservation in comprehensive plan @ 12:33](#)**

The group reviewed natural areas in the village warranting protection designation, particularly lake cliffs and wetlands, considering inclusion in the comprehensive plan update.

#### **[Culvert and dam projects status @ 17:37](#)**

Ronny outlined three culvert resizing projects and awaited engineering support from the county; the group believed additional certification points were within reach for such work.

#### **Watershed management plans and riparian buffers research @ 18:46**

Ronny researched existing plans for guidance on riparian buffers, finding the Keuka Lake Restoration and Protection Plan may apply though updating was needed; Lynn provided context.

#### **Solar energy and clean heating campaigns updates @ 22:36**

Ronny updated on a new solar energy campaign and awaited news from Chris on other clean energy programs, emphasizing ongoing efforts to promote sustainability and certify the village.

Meeting was adjourned at 5:29 PM.
